

|                                                                            |                                              |
|----------------------------------------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>Aluminium Sulphate                                | <b>Product Code :</b><br>NECHEMICAL-L6001014 |
|                                                                            |                                              |
| <b>Description :</b>                                                       |                                              |
| Aluminium Sulphate                                                         |                                              |
| <b>Technical Specification :</b>                                           |                                              |
| Assay: 99.5-102%                                                           |                                              |
| Molecular Formula: $\text{Al}_2(\text{SO}_4)_3 \cdot 16\text{H}_2\text{O}$ |                                              |
| Grade: AR /ACS Reagents                                                    |                                              |
| Molecular Weight: 630.38                                                   |                                              |
| Capacity: 500 gm, 50 kg                                                    |                                              |
