|----------------------------------------------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>Ammonium Persulfate                                     | <b>Product Code :</b><br>NECHEMICAL-L6002027 |
|                                                                                  |                                              |
| <b>Description :</b>                                                             |                                              |
| Ammonium Persulfate                                                              |                                              |
| <b>Technical Specification :</b>                                                 |                                              |
| Grade: Laboratory Reagent (LR)                                                   |                                              |
| Assay: (iodometric) 98%                                                          |                                              |
| Molecular Formula: (NH <sub>4</sub> ) <sub>2</sub> S <sub>2</sub> O <sub>8</sub> |                                              |
| Molecular Weight: 228.19                                                         |                                              |
| Capacity: 500 gm, 5 kg, 50 kg                                                    |                                              |
| Appearance Form: Powder                                                          |                                              |
| Colour: White                                                                    |                                              |
| pH: 1,0 - 2 at 228 g/l at 25 °C                                                  |                                              |
| Water Solubility: 228 g/l at 20 °C - Completely Soluble                          |                                              |
