

Product Name : Amplitude Modulation / Demodulation Trainer for Vocational Training and Didactic Labs	Product Code : ETKN-0010
Description :	
Equipment for Education, Engineering and Vocational Training - It has been designed specifically for the study of Amplitude Modulation and Demodulation.	
Technical Specification :	
This training board is based on latest solid state circuits for generating modulating signal, Amplitude Modulation and Demolutation. Practical experience on this board carries great educative value for Science and Engineering students.	
OBJECT To study the process of Amplitude Modulation & Demodulation
