

Analog Circuits Development Platform Trainer for Electronics Teaching Labs

BEL-TR-33

Description :

Analog Circuits Development Platform Trainer - Analog Circuits Development Platform - TechBooks are compact and user

friendly learning platforms to provide a modern, portable, comprehensive and practical way to learn Technology. Each TechBook is provided with detailed Multimedia learning material which covers basic theory, step by step procedure to conduct the experiment and other useful information.

Scientech 2612 Analog circuits development platform is used to perform analog circuit experiments. It is very useful in Analog Circuits Development Platform laboratories for performing analog experiments in colleges and universities. It is also useful in testing and making projects related to Analog electronics.

Self Contained and Easy to Operate.

Functional Blocks indicated on board Mimic.

On board DC and AC Power Supply.

On board Function and Modulation Generator.

On board Continuity Tester.

On board Toggle Switches and Potentiometers.

Solder less Breadboard.
