

Product Name : Analog Sampling-Reconstruction Kit for Digital Communication Teaching Labs	Product Code : DCT-TR-01
 The image shows a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, capacitors, and a large white potentiometer. The board is housed within a light-colored wooden enclosure. The text 'ANALOG SAMPLING & RECONSTRUCTION' is visible on the bottom right of the PCB. The entire assembly is set against a background with a repeating 'NAUGRA' watermark.	
Description : Analog Sampling-Reconstruction Kit - Synchronized Sine waveform output of Frequency 1 KHz & 2 KHz. Selectable sampling frequency of 2,4,8,16,32 KHz. Sample circuit/output, sample & hold circuit/output Switch selectable sampling Duty cycle of 0-90% in steps. 2nd & 4th order Low pass filter.
