|-------------------------------------|---------------------------------------------|
| <b>Product Name :</b><br>Aprotinin  | <b>Product Code :</b><br>NECHEMICAL-L500707 |
|                                     |                                             |
| <b>Description :</b>                |                                             |
| Aprotinin                           |                                             |
| <b>Technical Specification :</b>    |                                             |
| Grade: Biochemistry                 |                                             |
| Molecular Formula: C284H432N84O79S7 |                                             |
| Molecular Weight: 6511.52 g/mol     |                                             |
| Capacity: 5 mgm                     |                                             |
| Synonyms: Trypsin inhibitor (basic) |                                             |
| Appearance Form: Powder             |                                             |
| Colour: White                       |                                             |
