|---------------------------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>Carboxy Methyl Cellulose Sodium Salt | <b>Product Code :</b><br>NECHEMICAL-L5008012 |
|                                                               |                                              |
| <b>Description :</b>                                          |                                              |
| Carboxy Methyl Cellulose Sodium Salt                          |                                              |
| <b>Technical Specification :</b>                              |                                              |
| Grade: Laboratory Reagent (LR)                                |                                              |
| Synonyms: Sodium carboxymethylcellulose                       |                                              |
| Capacity: 500 gm, 25 kg                                       |                                              |
| pH: 6,5 - 8,5                                                 |                                              |
| Odour: Odourless                                              |                                              |
| Water solubility: Soluble                                     |                                              |
| Appearance:- Form: Powder                                     |                                              |
| Colour: Beige                                                 |                                              |
