|--------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>Chromium Trioxide | <b>Product Code :</b><br>NECHEMICAL-L6011012 |
|                                            |                                              |
| <b>Description :</b>                       |                                              |
| Chromium Trioxide                          |                                              |
| <b>Technical Specification :</b>           |                                              |
| Grade: Analytical Reagents (AR)            |                                              |
| Assay: 99%                                 |                                              |
| Molecular Formula: CrO3                    |                                              |
| Molecular Weight: 99.99 g/mol              |                                              |
| Capacity: 10 gm, 25 gm                     |                                              |
| Synonyms: Chromic Anhydride                |                                              |
| Appearance Form: Crystalline               |                                              |
| Colour: Violet                             |                                              |
| Melting Point: 197 °C                      |                                              |
