

Product Name :

Combined High Steam and Low Water Safety Valve - Heat Transfer
Training Systems and Heat Lab Engine Trainers for engineering schools

Product Code :

NEMHTM16

Description :

Combined High Steam and Low Water Safety Valve, technical teaching equipment for engineering - Heat Transfer Training Systems and Heat Lab Engine Trainers

Technical Specification :

Safety valve
closes off when the steam pressure exceeds the working pressure. This
high steam safety valve is combined with an other arrangement that
allows the steam to escape as water level falls to low. A properly
constructed model fitted on suitable reaction base.
