

Product Name : Diesel Truck Engine, Inline 6, with Injector Pumps, Electronically Controlled	Product Code : TechnicalLab0479
Description : Diesel Truck Engine, Inline 6, with Injector Pumps, Electronically Controlled This product is an electronically controlled cut-away of a diesel truck engine with an inline 6-cylinder configuration and injection pumps. Use of this cut-away will allow you to: • Use its reduced speed operation to teach about all of the moving mechanical parts. • Point to each of its carefully sectioned parts to train your students. • Easily differentiate between the color-coded cross-sections, cooling system, fuel system, etc. • Easily display and move the cut-away thanks to its sturdy stand and wheels. SPECIFICATIONS: • Displacement: 7,790/10,380cc (based on availability) • 4 stroke; Inline 6 cylinder • 4 valves per cylinder • Maximum power 310/450 hp (based on availability)	

- Water cooling
- Turbocharger
- Electronically controlled pump injectors
- Pre-heating device
- Operates electrically at 120 volts
- Mounted on stand with wheels
- Compliance: CE Mark
