

Product Name :
Digital Workstation for Electronics Teaching Labs

Product Code :
BEL-TR-47

Description :

Digital Workstation - Digital Workstation -TechBooks are compact and user friendly learning platforms to provide a modern, portable, comprehensive and practical way to learn Technology. Each TechBook is provided with detailed Multimedia learning material which covers basic theory, step by step procedure to conduct the experiment and other useful Information Sciencetech 2611DS Digital WorkStation is very useful in digital laboratories for performing digital circuit experiments in colleges and universities. It is also useful in testing circuits and making projects related to digital electronics. This TechBook has various functional blocks like DC supply, pulse generator ,pulser switch, data switch for input , logic probe ,8 bit LED display for output and frequency division unit. Sciencetech 2611 B has a graphical LCD which shows the list of experiments and gate level diagrams of selected experiments. Bread board to perform additional experiments by using on board supply and other controls is also provided.

Self contained & easy to operate.

Graphical LCD to show the menu of experiment and gate level diagram for selected experiment.

More than 51 Digital electronics experiments on single board

Solder less breadboard.

Solderless breadboard.

On Board DC Power Supply.

On board Pulse Generator
