

Product Name :
Fatigue Machine for Rubber India

Product Code :
NG101-A

Description :

Fatigue Machine for Rubber India

Technical Specification :

- Cam-operation, and then led the jig up and down stretching exercises, testing the fatigue resistance of the rubber.
- Windows based software - Windows software provides the user interface easier to operate.
- Load a saved curve and numerical.
- Test results and information can be stored up for future reference and analysis.
- Statements showing
- Operation of simple statements Editor allows users to design, layout and report format.
- Application: Determine the resistance of rubbers, leather and coated fabrics to the formation and growth of cracks, damages by Counter LCD

General Data:

- Grips: Min. 6 sets
- Counter LCD: 0 -999,999
- Grip Distance: 19 ÷ 75mm, 57 ÷ 75mm (adjustable)
- Speed: 300 ±5 rpm
- Dimension (Width × Depth × Height): 550×450 ×700mm
- Weight 90 kg + 10%
- Power: 220-240V, 50Hz, 6A
