

Product Name : FET Amplifier Trainer for Electronics Teaching Labs	Product Code : BEL-TR-19
--	------------------------------------

Description :
FET Amplifier Trainer - FET Amplifier Trainer - FET Amplifier Trainer is a useful training product for the students to study the operation of FET as an Amplifier. With the help of this product we can analyze various theoretical parameters such as, frequency response, drain current measurements, gate-source voltage measurement, drain-source voltage measurements, etc. The built-in DC power supply makes this product easy to operate.
Easy illustration of FET Amplifier
In-built DC power supply
e-Manual
