

Product Name :
FLOW OVER A NOTCH

Product Code :
Workshop Lab - HBW0009

Description :

FLOW OVER A NOTCH

Technical Specification :

Three weir plates, a rectangular notch and two vee notches, are provided.

Characteristic

s of flow over the notches can be

observed and coefficients of discharge can be determined. The plates are attached to the open channel of the Hydraulics Bench

.

Water is supplied to the channel via a discharge

diffuser

and passes through a stilling baffl

e to smooth the flow. A vernier hook

and point gauge is provided to measure the height of water level in the channel.
