

|                                                                     |                                              |
|---------------------------------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>FMOC-Chloride                              | <b>Product Code :</b><br>NECHEMICAL-L5003082 |
|                                                                     |                                              |
| <b>Description :</b>                                                |                                              |
| FMOC-Chloride                                                       |                                              |
| <b>Technical Specification :</b>                                    |                                              |
| Molecular Formula: C <sub>15</sub> H <sub>11</sub> ClO <sub>2</sub> |                                              |
| Molecular Weight: 258.70 g/mol                                      |                                              |
| Capacity: 25gm, 100gm                                               |                                              |
| Appearance Form: Crystalline                                        |                                              |
| Colour: Light Yellow                                                |                                              |
| Melting point/range: 62 - 64 °C                                     |                                              |
