

Product Name :
Forced Commutated Circuits for Vocational Training and Didactic Labs

Product Code :
ETKN-0028

Description :

Equipment for Education, Engineering and Vocational Training - Power Electronic Training Board has been designed specifically for to study the forced commutated circuits. Practical experience on this board carries great educative value for Science and Engineering Students.

Technical Specification :

To study the forced commutated circuits.

1. Class-A or self commutation by resonating the load.
2. Class - B or self commutation by an LC circuit.
3. Class - C or commutation through charged capacitor switched by another load carrying SCR
- 4 Class - D or commutation through charged capacitor switched by an auxillary SCR.

5. Class - E or an External pulse source commutation.
