

Product Name : Gas Engine Chassis 4 Wheel Drive with Mono-Jetronic E.I. and Working Light System - Electrical	Product Code : TechnicalLab0264
Description : Gas Engine Chassis 4 Wheel Drive with Mono-Jetronic E.I. and Working Light System - Electrical This product is a 4 wheel drive Gas Engine Chassis with Mono-Jetronic E.I and Working Light System. Where provided, it is equipped with fully functioning light system complete with parking lights, low-beam lights, high-beam lights and relevant indicators/switches; front and rear signal lights, emergency lights with relevant indicators; rear parking lights, stoplights, rear fog lights, backup light, horn. SPECIFICATIONS: • 4 cylinders, 4 strokes • Displacement: 1000/1100 cc • OHC distribution • Multi-point/mono-point/carburettor feeding • Electronic ignition • Centrifugal pump water cooling • 12V alternator • 4x2 front wheel-drive • 4x4 wheel-drive by means of mechanical lever • Gearbox 5+R • Differential: 4x2 helical bevel inside gearbox; 4x4 front helical bevel inside gearbox together with rear axle	

delay conical wheel; rear conical wheel

- Suspensions: front McPherson, rear solid axle with hydraulic shock-absorber
- Brakes: front disc, rear drum, independent double-circuit brake booster, emergency braking and hand brake
- Steering rack
- Working light system with:
 - Parking lights
 - Low-beam lights
 - High-beam lights
 - Front and rear signal lights
 - Emergency lights
 - Stop lights
 - Rear parking lights
 - Rear fog lights
 - Backup lights
 - Horn
