

Product Name :
Hay`s Bridge Trainer for Electronics Teaching Labs

Product Code :
BEL-TR-27

Description :

Hay`s Bridge Trainer - Hay`s Bridge Trainer - Hay`s Bridge Trainer NV6535 is useful training product for measuring the value of unknown inductance. This product is useful for students to understand the concept and working of A.C. Bridges.

Hay`s bridge is a modification of Maxwell`s bridge and is suitable for measuring inductance of high Q inductors by comparison with standard variable capacitance. By setting the null point we can evaluate the unknown inductance value.

In-built sine wave generator

In-built null detector with audio amplifier and speaker

Easy illustration of Hay`s bridge

e-Manual
