|---------------------------------------------------------------------------|----------------------------------------------|
| <b>Product Name :</b><br>Magnesium Stearate Precipitated                  | <b>Product Code :</b><br>NECHEMICAL-L6018018 |
|                                                                           |                                              |
| <b>Description :</b>                                                      |                                              |
| Magnesium Stearate Precipitated                                           |                                              |
| <b>Technical Specification :</b>                                          |                                              |
| Assay: 3.8-5.0%                                                           |                                              |
| Molecular Formula: $[\text{CH}_3(\text{CH}_2)_{16}\text{COO}]_2\text{Mg}$ |                                              |
| Grade: Laboratory Reagent (LR)                                            |                                              |
| Molecular Weight: 591.27                                                  |                                              |
| Synonyms: Stearic acid                                                    |                                              |
| Appearance Form: Powder                                                   |                                              |
| Colour: White                                                             |                                              |
| Melting point/range: 200 °C - lit.                                        |                                              |
| Capacity: 500 gm, 25 kg, 50 kg                                            |                                              |
