

Product Name :

Model of Cochran Boiler - Heat Transfer Training Systems and Heat Lab Engine Trainers for engineering schools

Product Code :

NEMHTM05

Description :

Model of Cochran Boiler, technical teaching equipment for engineering - Heat Transfer Training Systems and Heat Lab Engine Trainers

Technical Specification :

This is the same known vertical type hot water boiler. The shell is about 25 cm. in diameter and 80 cm. high. The cylindrical fire box is with a door and grate at its bottom. Hot gases pass from the fire to the combustion chamber through a steel fire pipe and then to chimney through the tubes. At both ends of the tubes covers are given and tubes can be changed after their use. The model is complete with heat exchanger, valve, steam and water gauges, stop valve, safety valve and manometer.
