

Product Name :

Pulse Width Modulation And Demodulation Trainer for Vocational Training and Didactic Labs

Product Code :

ETKN-0017

Description :

Equipment for Education, Engineering and Vocational Training - Experimental Training Board has been designed to study on the modern techniques of Pulse Width Modulation / Demodulation. Pulse Width Modulation And Demodulation Educational Training Kits Exporters for School, College, and Technical Education Training.

Technical Specification :

Using this training board one can know the specialized techniques of Pulse Width Modulation and Demodulation. Practical experience on this board carries great educative value for Science and Engineering Students

OBJECT

- * To modulate a pulse carrier with sinusoidal signal to obtain a Pulse Width Modulated signal
- * To demodulate the Pulse Width Modulated signal to obtain the modulating signal
