

Product Name :
Rear Axle (on stand with wheels)

Product Code :
TechnicalLab0320

Description :

Rear Axle (on stand with wheels)

A cut-away of a rear suspension containing independent wheels with oscillating arms, gas shock absorbers with helicoidal springs and drum brakes.

This cut-away is carefully sectioned for training purposes and professionally painted with different colors to differentiate the various parts and cross sections. Many parts have been chromium plated and galvanized for a longer life.
