

Product Name : Rubber Aging Oven India	Product Code : NG251
	
Description :	
Rubber Aging Oven India	
Technical Specification :	
• Forced air circulation by quiet air turbine. • Fully insulated stainless steel door with 2-point lock. • Pre-heated fresh air admixture by air flap control (adjustable in 10 % steps). • Vent connection including restrictor flap. • Digital PID-microprocessor controller with high-definition TFT-color display. • Self-diagnostics for fault analysis.	
Description: • Function: precision aging of rubber parts, products and components by using control software for managing and Organizing the data.	

- Working Temperature Range: +5°C above ambient to +300°C
- Resolution: to 99.9°C: 0.1 °C from 100°C: 0.5 °C
- Accuracy: ±1 .5°C
- Interior Dimension (Width x Depth x Height): 1,040 x 720 x 600 mm
- Number of Shelves: 8
- Temperature Sensor: Pt 100 sensor, DIN class A, 4-wire-circuit
- Control: LCD color display
- Adjustable parameters: temperature, speed, air flap position, time zones, environment.
- Programmable Timer: adjustable from 1 minute to 99 days
- Language Setting: English
- Power: 220-240V, 50Hz
- Net Weight: 160 Kg ±10%
- Accessories:
- Operation Manual: Hard copy in English
- Power and network cables and other accessories.
