

Product Name :
SERIES AND PARALLEL PUMPS, Fixed Speed

Product Code :
Workshop Lab - HBW0032

Description :

SERIES AND PARALLEL PUMPS, Fixed Speed

Technical Specification :

The pump and motor is mounted on the Hydraulics Bench which acts as a service module. An advanced inverter controls speed as well as indicating speed and input power.

Pressure gauges and pulse chambers are installed at pump suction and discharge.

The pump draws water from the Hydraulics Bench storage tank via a suction hose with a strainer and delivers flow to the Hydraulics Bench measuring tank
