

|                                                                     |                                             |
|---------------------------------------------------------------------|---------------------------------------------|
| <b>Product Name :</b><br>Tetrakis (Triphenylphosphine) Palladium(O) | <b>Product Code :</b><br>NECHEMICAL-L602308 |
|                                                                     |                                             |
| <b>Description :</b>                                                |                                             |
| Tetrakis (Triphenylphosphine) Palladium(O)                          |                                             |
| <b>Technical Specification :</b>                                    |                                             |
| Assay: 99%                                                          |                                             |
| Molecular Formula: C72H60P4Pd                                       |                                             |
| Grade: Analytical Reagents (AR)                                     |                                             |
| Molecular Weight: 1155.56                                           |                                             |
| Synonyms: Palladium-tetrakis(triphenylphosphine), Pd(PPh3)4         |                                             |
| Appearance Form: Crystalline Powder                                 |                                             |
| Capacity: 1 gm, 5 gm, 25 gm                                         |                                             |
