

Product Name : Thermal Conductivity Of Insulating Slab for engineering schools	Product Code : HTL0013
 The image shows a laboratory apparatus for measuring the thermal conductivity of insulating slabs. It consists of a large, light-colored rectangular slab on the left and a control unit on the right. The control unit has a white faceplate with three analog meters at the top, a central digital display, and two large black rotary knobs at the bottom. A yellow emergency stop button is located between the knobs. The entire setup is mounted on a grey metal frame. A large blue 'NAUGRA' watermark is overlaid across the center of the image.	
Description :	
Thermal Conductivity of Insulating Slab Apparatus Manufacturer, Supplier and Exporter from Leaders in Heat Transfer and Heat Scientific Lab Equipment Suppliers India	
Technical Specification :	
Thermal Conductivity Of Insulating Slab
