

Product Name :
Three Phase Transformer for Electrical Lab

Product Code :
ADM-017-NE

Description :

Three Phase Transformer for Electrical Lab for Electric Motors Teaching Labs 440V AC & has secondary 230v AC 3Phase, Various connects are possible Star-Star, Delta-Delta with the connections provided for various experiments. This Model is an educational model suitable for demonstrating to students the complete know of the Basics, Study and Voltage conversion at various levels, Study of Efficiency & Maintenance of these Transformers packaged in small rating. Students can make connections of their own with the help of the terminations provided.

Technical Specs :

Power ratings available : 1KVA / 2KVA / 5 KVA / 10KVA

Voltage Primary : 440V AC

Voltage Secondary : 230V AC

Enclosed in cabinet with terminations

List Of Experiments

Study of No load

Study of Full load

Vector group connections

Efficiency evaluation

Study of losses in transformer

Basic Overhauling Know how
