|---------------------------------------------------------------------------|---------------------------------------------|
| <b>Product Name :</b><br>Thulium (III) Carbonate                          | <b>Product Code :</b><br>NECHEMICAL-L603102 |
|                                                                           |                                             |
| <b>Description :</b>                                                      |                                             |
| Thulium (III) Carbonate                                                   |                                             |
| <b>Technical Specification :</b>                                          |                                             |
| Grade: Rare Earths                                                        |                                             |
| Assay: (Trace metal basis) 99.99%                                         |                                             |
| Molecular Formula: $\text{Tm}_2(\text{CO}_3)_3 \cdot x\text{H}_2\text{O}$ |                                             |
| Molecular Weight: 517.90 g/mol (Anhy.)                                    |                                             |
| Capacity: 5 gm, 25 gm                                                     |                                             |
| Appearance Form: Powder                                                   |                                             |
| Colour: White                                                             |                                             |
